Performance Athletic Club

The Performance Athletic Club is a multi-million dollar project consisting of multiple phases. Phase I began in 2010 as a design / build project and consisted of the tanning salon, exercise facility, lap pools, racquetball court, locker rooms, dry sauna, smoothie bar, day care, and women's workout room.

Phase II began in 2012 with the addition of a full gymnasium with a 2nd floor aerobics room and suspended running track accessed by an elevator and stairway. A steam sauna was included in the additional locker room area.

An additional entry and free-weights area was added that combines access to the three main buildings.

This state-of-the-art facility is one of Elko's finest.

A photograph of the exterior of a retail store named 'the cove'. The building features a curved, light-colored facade with a dark brown roofline. The name 'the cove' is displayed in a stylized font, with 'the' in teal and 'cove' in dark grey. The entrance is supported by several thick, square stone pillars. Large glass windows and doors are visible, reflecting the clear blue sky. The foreground shows a paved parking lot with yellow and white markings. The sky is a clear, bright blue.

Muley's Bar & Family Grill is a design / build project that is very unique and ornate.

Muley's Bar & Family Grill is also connected to the Auto Care Center

Machi's Saloon & Grill in Elko and Chin's Cafe in Carlin are examples of restaurants that we have renovated.

West Newlands Three Plex Project

Design, developed and constructed 3-plex multi-family units.
